HDD Water Block AquaTurtle

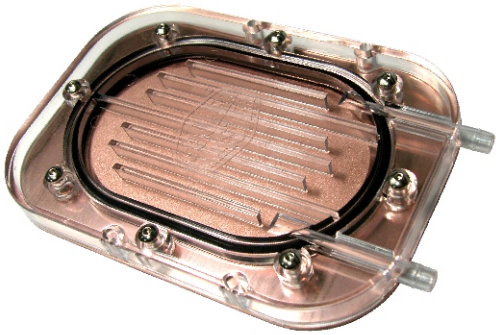
www.coolermaster.com

RL-D3A-CNU1

Introduction

Cooler Master launch a series of cooling accessory included several kinds of water blocks, radiators, water pipes, coolants...

One of water blocks is AquaTurtle, HDD Water Block, with copper base achieves excellent heat dissipation. Supporting for all 3.5" hard disk drives and providing best system stability and silent environment for your DIY cooling system.



High Performance
Ultra Silence

Features

1. Support for all 3.5" hard disk drives.
2. Can be used for all kinds of Φ6.5mm pipe Liquid Cooling System.
3. Easy mount of the HDD Water Block on the hard disk drive.
4. Easy assembly of tubes on the HDD Water Block.
5. A machined finish ensures perfect contact with hard disk drive, and provides the maximum stability.
6. Copper base achieves excellent heat dissipation.
7. Provide best system stability and silent environment.

Specifications

Model	RL-CUC-CNU1
Cover Material	PC141R
Base Material	Copper
Connector Material	PC (with cover)
Block Dimension	146x146x40 mm
Connector Inside Dimension	Φ4mm
Connector Outside Dimension	Φ7mm
Outer Pipe Diameter	Φ10mm
Inner Pipe Diameter	Φ6.5mm
Weight	600 g
Applications	All 3.5” HDD
